

BJ60S

Multimedia Collaboration

Product advantages

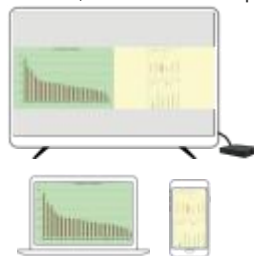

No need to install software

Compatible with Airplay, Miracast, WiDi

2 channel projection

Support iOS, Mac, Windows, Android intelligent device, random combination, multi screen display

Reverse control

Support Miracast reverse control, BJCast client software reverse control, USB reverse control

4. Scanning code, QR code cast screen

Phone, PC client scanning code and QR code screen cast, support cross network segment screen cast

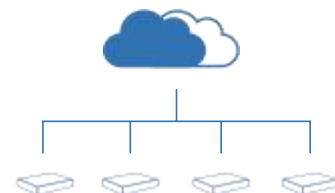

Visitor screen cast

Support AP independent hot spot and USB transmitting button projection

Unified management platform

Support centralized management and remote maintenance

Multi-screen Collaboration Solution Specialist

Product specifications

Software function		Hardware specification	
AirPlay	Compatible iPhone iOS protocol, no need to install any software	CPU	ARM 4 core processor
Miracast	Compatible Android Miracast protocol, no need to install any software	Operate system	Android
WiDi	Compatible WiDi protocol of Windows8/10, no need to install any software	WiFi module	802.11AC*2 module
GoogleCast	Support Google browser wireless display	AP hotspot	Support
BJCast	Compatible BJCast software wireless display Provide Android, iOS, MacOS, windows 4 sets transmitter software	Network	Support wired, wireless, 802.1x access to enterprise network
USB transmitter	Support Windows / Mac computer plug-in USB transmitter screen projection, provide visitors screen projection solution	LED light	White LED
Number of projection channels	2 to 1	Reset key	1
Reverse Control	Support BJCast、USB wireless display、Miracast、WiDi	USB extension	1*USB3.0,1*USB2.0
QR code/short code	Support scanning QR code and direct input of screen projection code	Video output	HDMI*1
Delay of projection	≤150ms	Audio output	3.5mm audio
Distance of projection	30m	Video output resolution	4k
PIN code of projection	Support screen casting security encryption, compatible with Miracast PIN code function	WIFI antenna	Built in high performance WIFI antenna
Wallpaper	Custom replacement and wallpaper automatic update plan	Boot time	<30s
language	Simplified Chinese, traditional Chinese, English	Power	DC6V2A
Unified management platform	Support	Size	127*97*20mm
SDK	Provide wireless screen projection SDK and support third-party integrated development	Warranty	One year
